

Garden Furniture
Since 1978

شركة سامبا للصناعات البلاستيكية
Samba Plastic Industries Co.

“Samba®” since 1978:

Our company began Plastic manufacturing in 1978. Our goal at the time was to replace our foreign imports and hopefully cover our local market needs with our own products.

Due to the high standards we set for our production, the local market embraced our products very favorably. As our factory grew with larger structure and more molds, so did our vision and our goals.

In 1990 we began producing plastic chairs and tables under the trade name “Samba®”. Since the production of the first chair, the name “Samba®” became a local household brand for reliable plastic products.

Continuity and Goals:

During the growth of our company, we continued our testing and development to withhold our trade mark reputation of producing top-of-the-line products by adding innovative material for better weather resistance and durability.

Quality assurance: All “Samba®” products go through several studies and testing before introduction in the market to ensure high level safety standards, weather tolerance and reasonable and competitive pricing.

Product Innovation: Continuously researching, developing, and introducing innovative designs and features to meet evolving customer needs and preferences. Staying ahead of market trends and creating furniture that combines functionality, aesthetics and durability. To sustain our pioneering status, in 2016 we introduced the use of *GAS ASSISTED INJECTION TECHNOLOGY* into our industry to manufacture a new line of high-quality luxury items.

Participation in international and local exhibitions: Constantly participating in international and local exhibitions through which we’ve been able to enter several regional markets such as Saudi Arabia, UAE, Kuwait, Iraq, Qatar, Lebanon, Somalia and the west bank and Gaza. We also export to New Zealand, Guadeloupe and Puerto Rico, and strive to expand our markets to include Europe and the USA.

Keeping pace with the development of customer and market needs: New items are constantly being added to satisfy the market's needs for indoor and outdoor plastic furniture, including cabinets, drawers, and storage units. In addition to a variety of different household items.

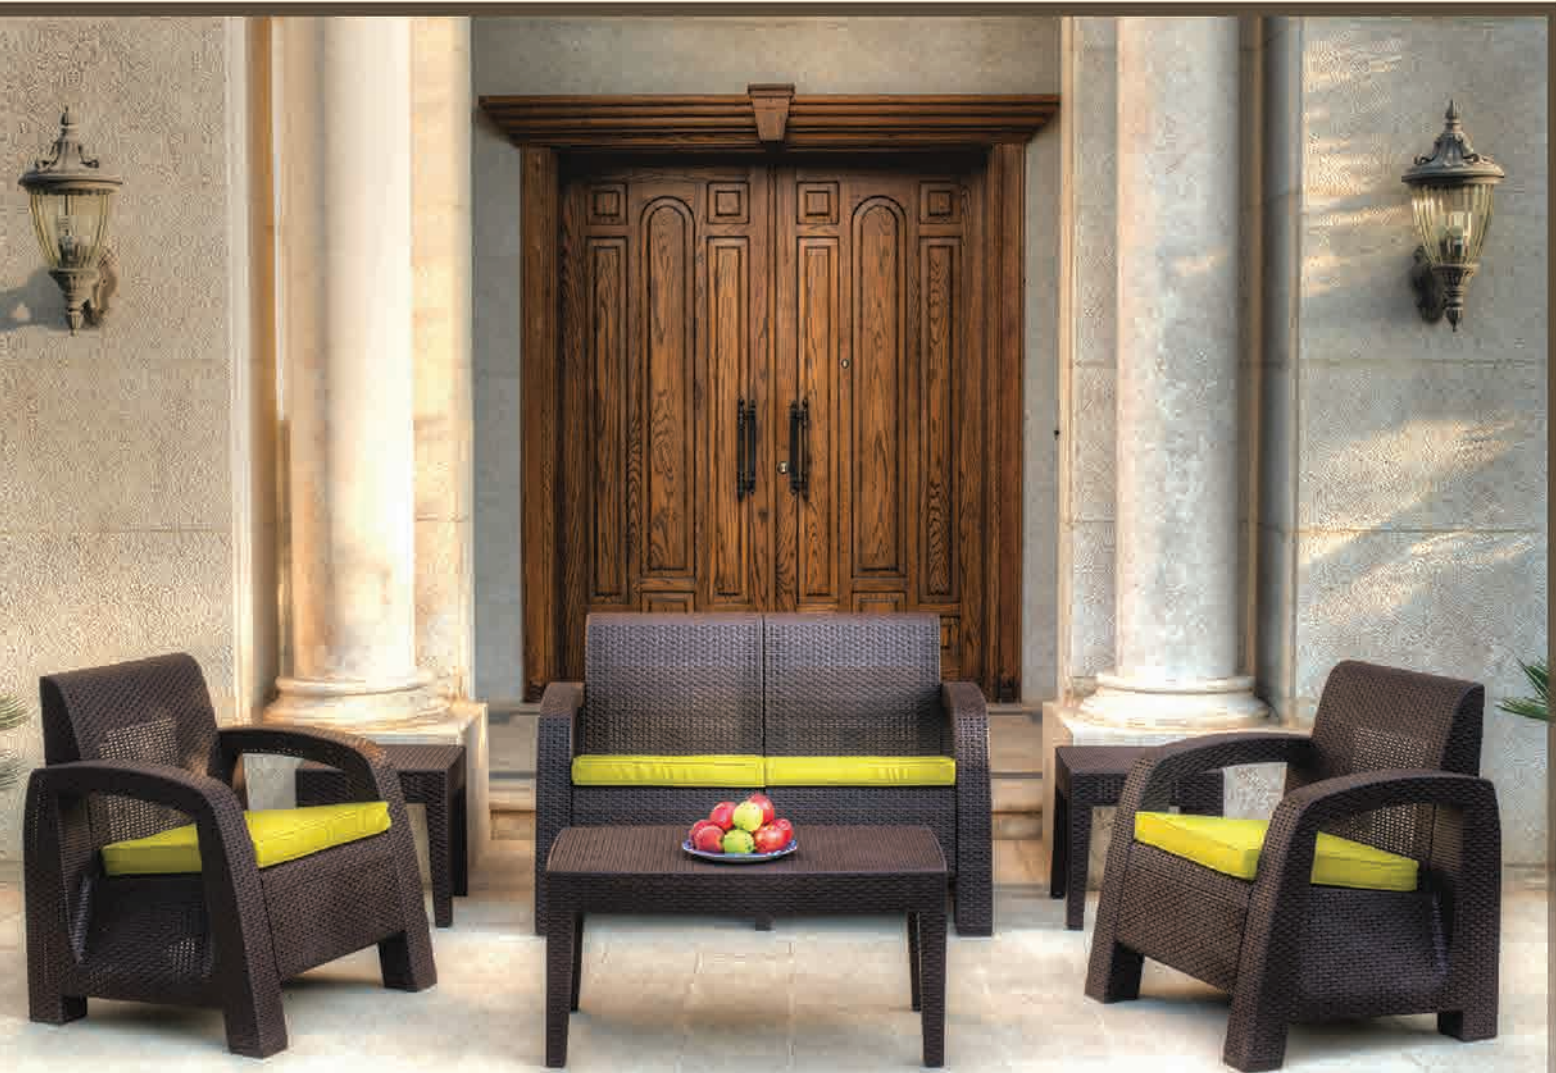

Customer Satisfaction: Focus on understanding our customers' needs and preferences to provide them with personalized solutions. Foster long-term relationships by delivering exceptional customer service, timely product delivery, and addressing customer feedback and concerns promptly.
